CONOTEC CO., LTD.

easy N eZiN easyN

- ◆ Less than 3 HP used storage controller at food refrigeration and cold storage such as bakery, butcher, agricultural products and cold food.
- ◆ 4 outputs (electronic valves, compressors, fans, defrosting) and 3 external inputs (DP, LTC, HTC)
- ◆ Waterproof case designed to be installed wherever required location, installation base for easy installation.
- ◆ Compared with its existing same class : compact equipment size and larger temperature display
- ◆ Variety of configuration and operation menu-driven equipment for installers and users-oriented, eliminated the complex function buttons and icons in the form of the output display.

Features

Where to install

※ Refrigerated storage for Maeil Dairy central laboratory examination conservation in Pyeongtaek, Gyeonggi-do.

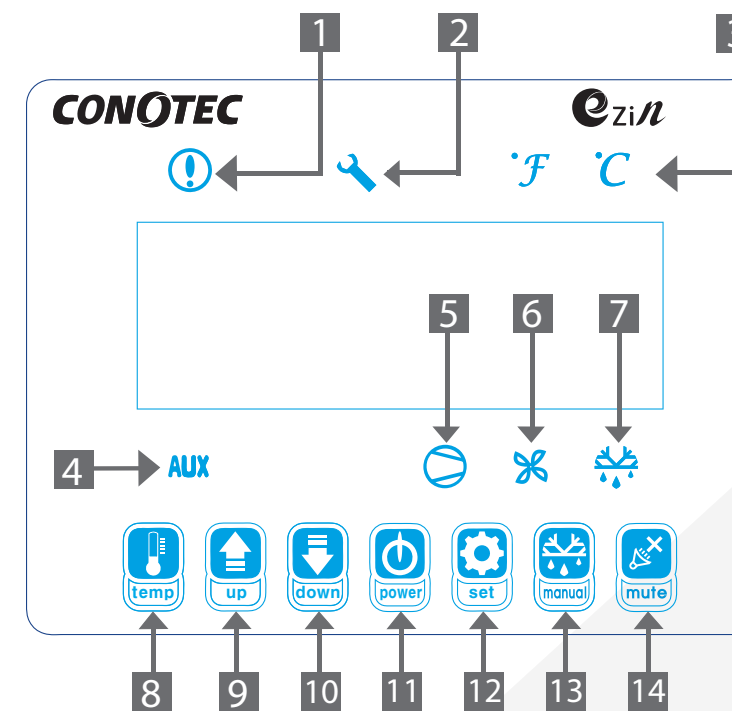

Model composition

Model	FOX-eZin_02(2HP)	FOX-eZin_03(3HP)
Control output	220VAC output(4EA) Load capacity-MAX:220VAC Relay (2A, 8A, 12A, 15A)	220VAC output(4EA) Load capacity- MAX : 220VAC Relay (2A, 8A, 12A), Magnet (20A)
Input	Sensor	NTC 10KΩ
	Outer contact	DP, HTC, LTC
Range	-55.0℃ ~ 99.9℃	
Output	Solenoid valve, COMP, Defrosting, FAN	

※ Power option : 110VAC / 24VAC
(Control output is also changed in the same manner as the power supply voltage)

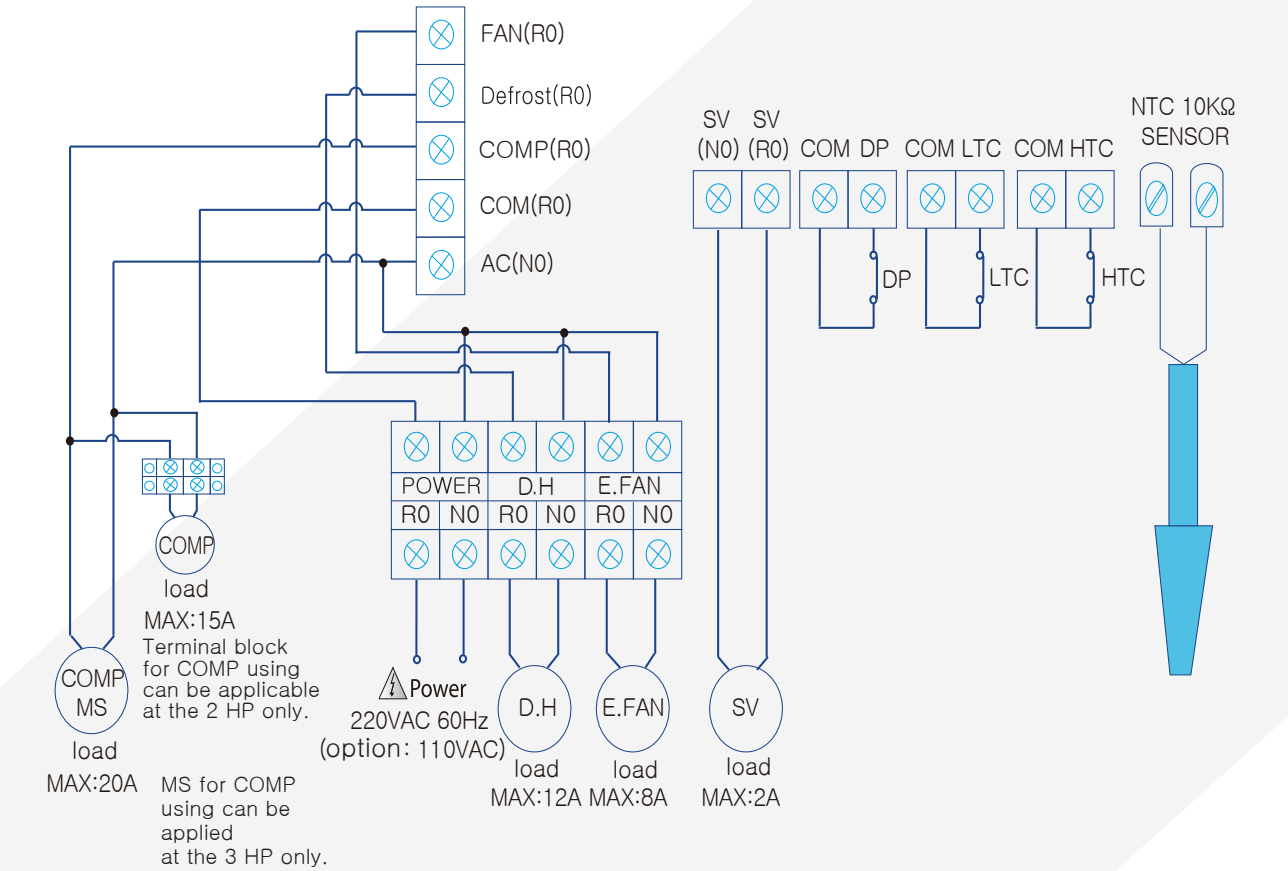

Part Names

- | | |
|-------------------|-------------------------|
| 1 Alarm output | 2 Error(check needed) |
| 3 Temp. unit | 4 Solenoid valve output |
| 5 COMP output | 6 FAN output |
| 7 DEFROST output | 8 Temperature setting |
| 9 UP switch | 10 DOWN switch |
| 11 Power | 12 Device set switch |
| 13 Manual defrost | 14 Mute |
